Spiritual Direction at St. Bernard's

If you are interested in exploring how spiritual direction can be a great aid in your spiritual life, please call the parish office. **480-661-9843**

Howdy,

It is August and I know that many of you will be returning from vacations; it is wonderful to have you back! Please remember that Covid numbers are still high and our children and some adults are still vulnerable: masks are optional for those vaccinated and it is still a good idea to physical distance. Please know that the staff and I are watching the numbers closely.

Remember that in August we celebrate our patronal feast, St. Bernard of Clairvaux. The feast is Friday, August 20, so please mark your calendars. We usually have Exposition of the Blessed Sacrament after the morning Mass until 6:00 pm. I will let you know if we will celebrate Mass at 6:00 pm or if we will have Benediction.

This promises to be a busy year.

Yours in Christ,
Fr. Mike

Vocation: Eighteenth Sunday in Ordinary Time

"The bread of God is that which comes down from heaven." If simplicity of life and the evangelical counsels of poverty , chastity, and the obedience especially attract you, discover that life as a priest, deacon, sister or brother. Contact the Vocation Office at (602)-354-2005 or www.dphx.org/consecrated-life

SANCTITY OF LIFE

"More than four thousand innocent lives are taken each day in this land of the free and home of the brave, whose lady holds high the torch of welcome to human life."
John Powell, Abortion: the Silent Holocaust

"Más de cuatromil vidas inocentes son eliminadas cada día en esta tierra llamada de la libertad y cuna de los valientes, cuya Patrona o Estatua de la Libertad, mantiene en alto la antorcha de bienvenida a la vida humana."
John Powell, Abortion: the Silent Holocaust

The "Fetus"

For many years, their most significant and basic ar-gument has been that the so-called fetus is not a human life. They also claim that the question of when human life begins is uncertain and a religious issue. However, medical textbooks and scientific reference works consistently agree that life begins at concep-tion, when a genetically distinct individual is brought into existence. Some of the world's most prominent scientists and physicians testified to a U.S. Senate committee that human life begins at conception. At these same hearings, pro-abortionists, though in-vited to do so, failed to produce even a single expert witness who would testify that life begins at any point other than conception. From the moment of conception, the unborn fetus is not simple, but very complex. The newly fertilized egg contains a staggering amount of genetic infor-mation, sufficient to control the individual's growth and development for an entire lifetime. It is scientifically inaccurate and untrue to say a fetus is not a human being simply because he or she is at an earlier stage of development than an infant. The mother and the unborn child are two separate individuals and half the time, they are not even the same sex! The child has its own DNA, fingerprints and blood type, distinct from the mother's.

Pro-Life Articles

El "Fetus"

Por muchos años, el argumento más básico y significante ha sido que el tal fetus no es un ser humano. También dicen que la pregunta acerca de cuando empieza la vida del ser humano es incierta y que es un asunto religioso. Sinembargo, lso textos médicos y trabajos en referencias científicas constantemente están de acuerdo que la vida comienza en la conepción, cuando un individuo genética-mente marcado comienza a existir. En esta misma audiencia, invitados en favor del aborto, a pesar de que se les invitó a declarar, no les fué posible llevar un solo testigo experto que pudiera confirmar que la vida comienza en cualquier otro momento que no fuese en la concepción. Desde el momento de la concepción, el fetus que no ha nacido, no es simple, pero muy complejo. El huevo que acaba de ser fertilizado contiene una enorme información gené-tica, suficiente para controlar el crecimiento y el desarrollo del individuo durante toda su vida. Es cientificamente inapropiado e incierto decir que un fetus no es un ser humano simple-mente porque él o ella está en un período de desarrollo anterior a la infancia. Estar dentro de algo no es igual que ser parte de algo. La madre y el bebé que no ha nacido ,son dos individuos por separado y muchas veces no son del mismo sexo. El niño tiene su propio ADN, huellas digitales y tipo de sangre, diferentes a los de la madre.
